

# LARGE RANGE OF CARTRIDGES

A VARIETY OF FILTERS AVAILABLE TO CREATE  
A CUSTOM FILTRATION SYSTEM

# Water Treatment

There are a number of problems that diminish water quality. If you already have a water problem check table to determine the best solution based on your test results. Often, especially a single water source has multiple problems, which may result in one or more symptoms. Installing a system that incorporates multiple filter types will be required. The following charts provides solutions to water quality problems based on specific water test results.

## Symptom Chart

SYMPTOMS	PROBLEMS	SOLUTION	PRODUCT
Soap scum, spotting	Hard water / Scale	Water Softener	85 90
Bad taste and odor	Chlorine, Organics	Activated Carbon Filter	83 86 88 90 92
Dirty cloudy water	Turbidity	Sediment Filter	82
Plumbing corrosion, green stains, leaky pipes	Acidity (low pH)	Neutralizer Filter	87
Health problems (Sour stomach)	Bacteria, Viruses	Ultrafiltration and Nanofiltration membranes	94 91
Scaling	Calcium accumulation	Antiscale Filter	90
Rust Stains, Orange color, Metallic taste, Black stains	Iron, Manganese	Iron and Manganese reducing	92 88
		Demineralization	89
		RO membrane	80

Products are sold separately

## Save Space Under Your Sink

Lightweight,  
Ergonomic,  
Easy to replace filter,  
Secure capsule,  
Fast water flow.

# Cartridge to Fit All Needs

Wide range of filter systems designed to be installed under your sink. Suits a variety of FT brands. You can modify the configuration depending on your needs.

VOH-4

VOH-3

VOH-2

VOH-1

**VO-82**  
Polypropylene sediment filtration cartridge 5 micron.

**VO-86**  
Coconut shell activated carbon block cartridge.

**VO-80**  
70 GPD RO Membrane. This membrane is rated at 70 gallons per day.

**VO-90**  
Activated carbon with KDF and polyphosphate cartridge, removes chlorine and prevents scaling.

**VO-83**  
Granular Activated Carbon GAC cartridge

**VO-87**  
Mineral and Ph regulating cartridge.

**VO-88**  
Granular Activated Carbon GAC with KDF bacteriostatic cartridge.

**VO-91**  
Ultrafiltration membrane for domestic water treatment.

**VO-85**  
Water softening cartridge.

**VO-94**  
Antimicrobial Nanofilter cartridge.

**VO-89**  
Deminceralization mixed bed resin cartridge.

**VO-82**  
Carbon block cartridge.

## Easy to Use

Low pressure  
Without electricity

Safety cap

## EASY TO CHANGE

'TWIST TYPE' CARTRIDGE

### NO MESS

Each VO cartridge is a self-contained capsule that is simply discarded at the end of service life. No need to handle contaminated matter.

### NO TOOLS

VO quick change filters are designed to be fast and easy to install. Replacing a filter can be done in a matter of seconds with a simple 1/4 turn.

### NO PROBLEM

VO offers a variety of filters that can address aesthetics (taste, odor, color), lead, cysts, sand, grit, dissolved solids and more.
